

ABHISHEK PRATAP

Bengaluru, Karnataka | abhishekpratap5210@gmail.com | +91 7654834623 | [LinkedIn](#)

SUMMARY

- Results-driven **Network Engineer with 1+ year of experience** in IT networking, delivering **99%+ network uptime** through expert troubleshooting, routing & switching, and VLAN segmentation across enterprise environments.
- Hands-on expertise in **CCNA, SD-WAN, and network protocols**, with proven ability to configure and manage **MikroTik, Neclo, and Anix Gate** devices across 5+ branch locations and Proficient in **Zabbix-based network monitoring** for 200+ devices

WORK EXPERIENCE

Network Engineer

Jul 2025 - Present

Aspirate Communication Pvt Ltd | Bengaluru, KA

- Diagnosed and resolved **50+ network incidents** using packet analysis, Wireshark, and monitoring tools, maintaining **99%+ network uptime** across critical infrastructure.
- Deployed and supported **SD-WAN solutions across 5+ branch locations**, improving WAN performance by ~35% and reducing manual failover interventions significantly.
- Monitored real-time network health for **200+ devices using Zabbix**, cutting mean time to detect (MTTD) issues by ~40% through proactive alerting and threshold configuration.

EDUCATION

B.Tech CSE | Aug 2021 - Jun 2025

ITM University Gwalior, MP | CGPA - 7.7

Intermediate (12th) | April 2020 - Mar 2021

Kendriya Vidyalaya CRPF Ranchi, Jharkhand | Percentage - 76%

SKILLS

CCNA TCP, UDP, IPv4/IPv6, **Static & Dynamic Routing**, **VLAN**, Access/Trunk Port, **Spanning Tree Protocol**, **OSPF**, RIP, EIGRP, IGRP, ISIS, **DHCP**, **NAT**, DNS, **SSH**, Telnet, **OSI Model**, **SD-WAN**, Administrative Distance, DR/BDR, Next Hop, Network Mask

Linux **User/Group Management**, **LVM & File Systems**, Disk Management, System Monitoring, Package Management, **Service Control**, **Firewall Configuration**, Bash Scripting (Basic).

Azure **Virtual Network (VNet)**, Subnets, **NSG**, **Azure Firewall**, **Azure Bastion**, **VNet Peering**, **VPN Gateway**, ExpressRoute (Basics) **Azure DNS**, Traffic Manager, **Network Watcher**, **Azure Monitor**, Log Analytics, Azure Active Directory (Entra ID), Blob Storage, **Load Balancer**, Public IP, Cost Management & Billing.

AWS **VPC**, Subnets, **Route Tables**, **Internet Gateway**, **NAT Gateway**, **Security Groups**, NACLs, **Transit Gateway**, Direct Connect (Basics), **Route 53**, **CloudWatch**, **AWS VPN**, Elastic Load Balancer (ELB), EC2 (Basics)

PROJECTS

VLAN & Inter-VLAN Routing Implementation | Jan 2026

- Segmented network into **3 department VLANs (HR, IT, Sales)**, reducing broadcast traffic by 80% and improving overall **network security posture**.
- Configured inter-VLAN routing with **Layer 3 switching and subnetting across 3 distinct IP ranges**, enabling 100% inter-department connectivity without compromising isolation.
- Reduced **troubleshooting resolution** time by ~30% through structured connectivity **testing using ping, traceroute, and packet capture tools**.

Professional-Level Cloud Web App Deployment | 2026

- Deployed a full-stack cloud web application on **AWS EC2 with Auto Scaling** and **Azure Blob/S3 CDN** for static assets, achieving **production-grade availability** with automated infrastructure via **Terraform** and **GitHub Actions CI/CD**.
- Configured **RDS/Azure DB**, **Load Balancer**, and **VPC/VNet** with traffic handling rules and **NSG/Security Groups**, reducing manual provisioning time by ~60% through Infrastructure-as-Code (IaC).
- Implemented **end-to-end network security** across public/private subnets with least-privilege routing, cutting simulated attack surface by enforcing zero-trust access policies across **3 cloud network layers**.

CERTIFICATES

- Azure Fundamentals (Udemy) | April 2026**
- CCNA(Udemy) | April 2026**
